

Y-Transporter

YT10/YT20/YT30

Yacht Transporter

Model YT-10/20/30

TECHNICAL SPECIFICATIONS

VERMEER-HOLLAND OFFERS A RANGE OF HARBOUR EQUIPMENT LIKE YACHT-CRANES, TRANSPORTERS AND FRAMES. THE VERMEER-HOLLAND YACHT-TRANSPORTERS ARE AVAILABLE IN THREE TYPES, THE YT-10, YT-20 AND YT-30 WITH A LIFTING AND TRANSPORT CAPACITY OF 10, 20 OR 30 TONS. THE Y-CRADLE IS DESIGNED FOR TRANSPORTING YACHTS FROM THE YACHT-CRANE LOCATION TO ANY STORAGE PLACE OUTSIDE OR INSIDE A SHED. THE YACHT-TRANSPORTER IS EQUIPPED WITH AN INDEPENDENT FOUR WHEEL STEERING, CREATING AN OUTSTANDING MANOEUVRABILITY. THIS ENABLES AN OPTIMAL LOGISTIC STORAGE OF ALL YACHTS. THE GUARANTEED PARALLEL MOVEMENT OF THE FOUR LIFT-CYLINDERS ENSURE THAT THE LIFTING PRESSURE IS EQUALLY DEVIDED TROUGH ON THE YACHT ITSELF. THE TRANSPORTER IS TOWED AND HYDRAULICALLY POWERED BY A LIGHT FORKLIFT OR TRACTOR. THE CONTROLS OF THE STEERING AS WELL AS THE LIFT-FUNCTION ARE OPERATED FROM A WIRED REMOTE CONTROL. THE VERMEER YACHT-TRANSPORTER IS OF A COMPACT AND ROBUST CONSTRUCTION.

Power

Hydraulic power source	forklift or tractor hydraulics
Required pump capacity	approx. 20-30 ltr.
Required working pressure	200 bar
Required electrical feed	12 V

Hydraulic functions

Valves general	electrical over hydraulic
Valves lift/lower	on/off
Valves steering	on/off
Lifting height	20 up to 25 cm.

Capacity

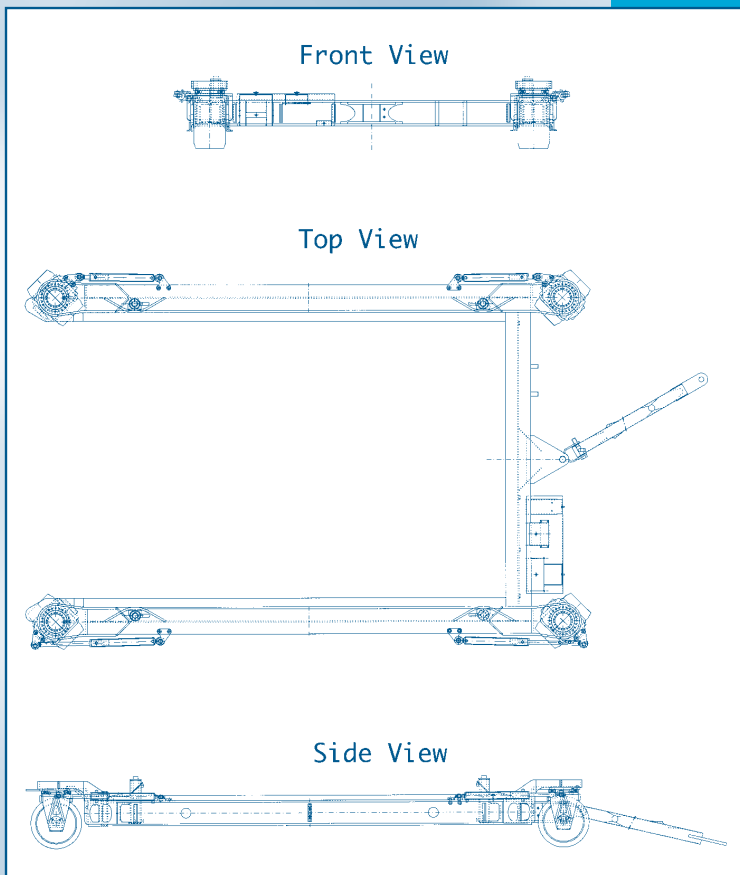

YT-10	max. 10 tons
YT-20	max. 20 tons
YT-30	max. 30 tons

Controls

Wired remote control	* wheel steering front * wheel steering rear * lift/lower control
Wire length	customer specification

Dimensions machine

Length	3800 up to max. 5000 mm
Width	2200 up to max. 3200 mm
Height	550 mm
Length pull-bar	customer specification
Weight	approx. 975 kg (YT-10) approx. 1500 kg (YT-20) approx. 1900 kg (YT-30)
